HOBBIES

- Kitesurfing
- Snowboarding
- Padel

JAN GRZELINSKI

Financial & Data Analyst | FinTech | Real Estate

PROFILE

Finance and operations professional with 7 years of experience in real estate and equity compensation, with a strong track record in data analysis, stakeholder coordination, and project completion. Daily hands-on user of Jira and Confluence (3+ years) for issue tracking and cross-team collaboration; regularly supports UAT and SaaS platform configuration for global clients. Works comfortably between business and technical teams, with practical SQL exposure and a growing toolkit in Python and data analysis. Former professional basketball player (international).

PROFESSIONAL EXPERIENCE

Vesting Specialist — Computershare, Warsaw → Barcelona *2023 – Present*

- Partner daily with global clients (SAP, Coca-Cola, DHL, Barclays, Savills) and internal teams, delivering cross-functional project management.
- Coordinate end-to-end project delivery for equity award programmes (RSU, PSU, ESPP, Options, SAYE) — grants, vesting, exercises, cancellations — from requirements gathering and system setup through to completion.
- Use SQL daily to query, filter, and validate participant records, resolving discrepancies across PROD and UAT environments.
- Track requirements and coordinate resolution via Jira (3+ years) across a multi-country environment (UK, Switzerland, Germany, Spain, USA, France), spanning both client-facing and internal back-end work.

Business Analyst, Capital Markets — CBRE, Warsaw *2022 – 2023*

- Supported 10+ commercial real estate transactions (offices, retail, logistics — EUR tens to hundreds of millions) at Poland's #1 advisory firm by transaction volume, incl. due diligence support, red-flag reviews, and face-to-face property viewings, liaising with both transacting parties.
- Built Excel financial models and reporting tools (rent rolls, tenancy schedules, cash flow, vacancy, NOI and yield calculations) — deriving indicative pricing — used directly in investor presentations.
- Provided multi-stakeholder coordination — gathering and structuring data requirements from internal transaction records and advisors to support international investment funds.

Analyst — Knight Frank, Warsaw *2020 – 2021*

- Identified and evaluated land plots for logistics and office sectors, presenting investment opportunities to real estate funds; preparing financial models and presentations.

Earlier: JLL (Real Estate, 2019), **Upgrade Spain** (Tourism Management, 2018–2019), **Professional Basketball Player** (2010–2019).

PERSONAL PROJECTS — AI & AUTOMATION

- **Setup Check Assistant** — automates extraction of unique values across Excel columns to generate validation templates, cutting manual checking work by 60%.
- **Timeline Generator** — auto-generates project timelines from an event date (business days/holidays aware); deployed on DigitalOcean, cutting manual scheduling by 80%.
- **Obsidian + Claude Code** — knowledge-management & note-taking system — auto-transcribes, categorizes, and links notes captured anywhere (phone or desktop) via voice, web clipper, or YouTube/Instagram; generates reports for discussion with Claude Code (in VS Code) as a personal AI assistant.
- **Flight Assistant AI** — personalized agent monitoring flight offers against user preferences.
- **Diet & Nutrition Assistant** — Streamlit app generating diet/meal plans via Claude AI; logging, barcode lookup, PDF export.

AI / DATA TRAINING

"Work in AI: Become a Data Scientist from Scratch" — 5-month intensive programme (edu.gotoit.pl, 2025): data analysis (EDA, cleaning, preprocessing), Python (Pandas, NumPy, JSON, and more), SQL, visualization (Matplotlib/Seaborn), ML fundamentals, Streamlit, Git/GitHub, VS Code, conda, etc.

ADDITIONAL INFORMATION

Background: Former professional basketball player (2010–2019) — Polish Youth National Team (World & European Championships), Polish Basketball League; International experience in Poland, USA, Spain. Featured on [Wikipedia](#).
